Peacock Medicine Company is an International pharmaceutical company that specializes in the field of Domestic and Export Marketing of Formulations. We deal in Finished Formulations, (API's), Medical Equipment, Surgical and Hospital Consumables, Nutraceuticals, and Veterinary Drugs. Peacock Medicine is one of the fastest growing companies dealing with Contract Manufacturing in India. We also source from other countries as per requirement. Products from Peacock Medicine Company meet international regulatory guidelines. our Products are backed by essential certifications and documents such as EU-GMP, WHO GMP certification, COPP, Dossier, DMF and other regulatory documents as required from country to country.

Vision

Peacock Medicine Company is a multi-disciplinary pharmaceutical sourcing & manufacturing company, founded by professionals who have vast experience in Pharmaceutical Industry.

Our vision is to be the partner of choice for Institutions, Hospitals and Pharmacies worldwide who are looking forward to source world-class products.

Mission

By leveraging the right knowledge, the competencies, and the business network that Peacock Medicine Company has developed over years, it's the mission of Peacock Medicine Company to deliver successful business endpoints which achieve a win-win situation for all the stake holders in the Pharma sector working in India and abroad.

Regulatory Affairs Documentation

We have in house quality services in regulatory affairs documentation namely Common Technical Document (CTD), Asian CTD (ACTD) for Product Registration Dossiers, Drug Master File (US DMF), European DMF (EDMF) for API's & Site Master File (SMF) & Plant Master file (PMF). We facilitate timely delivery of crucial documentation work on turnkey basis which is a very critical component in the field of highly regulated pharmaceutical market worldwide.

Our Aim:

Extensive action plans with step-by-step directives for every phase of export operation to eliminate most missteps and losses including steps for making effective presentations, follow-up and closing orders.

Peacock Medicine provides solutions in the following domains:

- **Quality Services:** Source products from units having relevant quality certifications like ISO, WHO GMP, FDA, CE etc.
- **Document Systems:** Related to export logistics, Dossiers, DMF, CTD etc. Peacock Medicine Company professional work tirelessly to ensure that our valuable client base can continue their reliance on Peacock Medicine company as a source of quality products.

Our clients can look forward to:

- a) **Finished formulations** (as per customer-specific compositions) across dosage forms & therapeutic categories: Capsules, Tablets, Injectables, Syrups, Tubes, Sachets, Inhalers, LVP, SVP & Biosimilars.
- b) **Procurement of Bulk Drugs** (APIs), Raw Materials, Essential Oils, Aroma Chemicals, Herbal Products & Extracts, Phytochemicals.
- c) **Food/Dietary supplement formulations** (Multivitamins, Minerals, Tonics, etc.).
- d) **Contract Manufacturing** (Crams / Custom Synthesis / Contract Manufacturing from India) India's success in the Custom Research and Manufacturing Services (CRAMS) is booming thanks to the country's strong process chemistry skills, low operational costs and availability of a skilled workforce. We have technical tie up with several factories for custom synthesis. Peacock Medicine Company is one of the fastest growing companies dealing with Contract Manufacturing in India.

Expertise

Quality of the manufacturing process or product is the most sensitive part of the Peacock Medicine Company. Getting products sourced from companies having valid compliance with relevant regulatory procedures prevalent in various countries to make our clients deliver exactly what's required in domestic and international markets is an area of expertise of Peacock Medicine company.

Our company is committed to satisfying the expectations of our partners, clients and suppliers. We respect every deal that we undertake and are persistent to building relationships through quality products and services.
